

**Boğaziçi University Institute of Biomedical Engineering  
Graduate School Application**

**Statement of Purpose Template**

1) Please describe your aptitude and motivation for graduate study in Biomedical Engineering (BME). (maximum 2 paragraphs)

2) Please describe your academic plans and research interests in BME, and discuss in detail how your past training and experiences have prepared you for work in this field. Also, please include the faculty members and/or laboratories that you would like to work with at the BME. If possible, please include a specific research problem/interest that you would like to explore further. (maximum 3 paragraphs)

Please indicate the research project (if any) you would like to work on in BME, your reason for choosing this project, and your qualifications. (maximum 2 paragraphs.)

You can access active research projects at our institute from the link below

<https://bme.bogazici.edu.tr/active-research-projects>

3) What are your future career goals and where do you see yourself in the next five years? How does graduate work at the BME fit in with your future plans? (maximum 2 paragraphs)

4) (OPTIONAL) Which keywords would best describe your personality, interpersonal relationships, and extracurricular activities? Would you like to provide any other/additional information about yourself that is relevant with your application for graduate work at the BME? (maximum 2 paragraphs)
